Membership Description

- ❖ **Active Member:** *Open to all public and private wholesale or retail natural gas service, distribution and transportation providers, marketers, and others associated with the delivery of natural gas service. Active Members of the Association shall be entitled to vote on matters submitted to the Membership by the Association’s Board of Directors. Each Active Member shall be entitled to one vote.*
- ❖ **Associate Member:** *Open to all organizations that might not be eligible for Active Membership but are interested in furthering the purposes and functions of the Association. Only Active Members have voting rights, but all Associate Members shall be entitled to be heard at any meeting of the Association through their appointed representatives.*
- ❖ **Associate Business Member:** *Open to individuals or small firms with less than 50 employees, who are actively engaged in the manufacture, fabrication, or provision of gas appliances, supplies or equipment for the gas industry; or who furnish professional or contract services to the gas industry.*
- ❖ **Associate Municipal Member:** *Open to all municipally owned natural gas distribution systems in Georgia. Once the number of Associate Municipal Members has grown to 20 in number and \$5,000 in aggregate annual dues, an “At Large” Board Seat will be established. The Associate Municipal Members, via popular vote may fill the Board Seat. The At Large Board Member will be considered an Active Member and may vote on matters coming before the Board.*
- ❖ **Honorary Member:** *In recognition of distinguished service and achievement, membership may be conferred upon a person or organization by a majority vote of the Board of Directors. No dues.*
- ❖ **RNG Steering Committee Member:** *Open to individuals or companies interested in supporting Renewable Natural Gas development projects.*

The Natural Gas Association of Georgia Advocacy Positions

- *The direct use of natural gas offers many benefits for Georgia consumers and businesses.*
- *Improving and advancing natural gas pipeline infrastructure provides consumers reliable energy service along with security and resilience during disruptive events.*
- *Natural gas provides immediate and impactful solutions for safeguarding Georgia’s environment.*
- *Abundant supplies of natural gas are available through a robust, responsible natural gas drilling and production program in the United States. Meeting Georgia’s growing energy needs depends on these efforts.*
- *Innovation, research and development, and new natural gas technologies provide critical pathways to ensure continued environmental improvement, consumer options and sustainability.*
- *A balanced and inclusive approach in meeting present and future energy demand is necessary to offering consumer energy choice and avoiding excessively high energy costs.*
- *The affordability of natural gas enhances the lives of Georgians through low household energy costs and attracting jobs and industry in the state of Georgia.*
